Astrology For Lovers

INTRODUCTION FOR COUPLES

The "Astrology for Lovers" program analyses the relationship possibilities and assesses the compatibility between two people. The left-hand column of the analysis shows the relationship from the point of view of the one partner and the right-hand column from the point of view of the other. This report describes facets of individual character which reveal certain predispositions within relationships whoever the partner is, as well as facets solely evoked by a specific partner. By enhancing your positive and transforming your negative behaviour patterns you will be able to have optimal success in your relationship.

PROJECTIONS

When there is an attraction between two people there is also a powerful tendency to see qualities in the partner which are the projections of one's own idealised picture of the relationship. Should problems arise later the likelihood is that they arise from these projections. This analysis shows what kind of partner David and Victoria are attracted to and what to do to avoid evoking negative behaviour in the partner through the previously mentioned projection mechanisms. Greater awareness of these partnership mechanisms can improve a relationship immeasurably.

CONTRADICTIONS

The rest of the analysis deals with the planetary interactions between the two horoscopes. This makes it possible to learn the lessons which this particular partnership has in store for itself and to judge its compatibility. Please bear in mind that a horoscope - and personal character - are immensely complicated and full of contradictions. Although this analysis does try to weigh up different contradictory factors, seemingly opposite characteristics may well be listed next to each other. In these cases one type of behaviour will tend to neutralise or simply conflict with the other.

LISTEN TO YOUR HEART

In the comparison of two horoscopes there will always be problematic contacts as well as harmonious ones. From the point of view of long-term relationships, problematic inter-aspects also show compatibility ... there is far more likelihood of a stable bond with many problematic contacts than with no cross-contacts at all. Above all remember that if you have met and fallen for a person then that already shows compatibility, whatever your horoscope says. First listen to your heart, then use what you can learn from this report to improve on what you have.

GENERAL BACKGROUND

David

Victoria

IDENTITY: Though the Sun Sign is obviously a very general factor in relationships, it is - together with the sign the Moon is in - nonetheless powerful. It is important to remember that any Sign can successfully relate to any other Sign. Statistically there are no pre-dispositions of one Sign to another. However the interaction between two Sun Signs will give rise to special pleasures or challenges which will form part of the process of personal development for each partner. Your Sun Sign reflects your personal identity and desire to realise yourself - what is important is whether you feel supported in this quest or not.

Sun in Aries

Discover your individuality

As an Aries you have a strong sense of direction and dislike being influenced or told what to do. You need a partner who admires you and supports your enthusiasm, someone who is prepared to take a few risks alongside you. A few quarrels here or there, are OK, challenges are OK ... you don't want to be smothered, mothered or controlled. At heart you are a straightforward or even naive person who likes to fight for love, and win the heart of your loved one through rash acts of bravery.

Sun in Sagittarius

Inspire with your visions

As a Sagittarius you seek to expand your horizons and want to find meaning in life. You embrace principles of freedom and justice, and want to be respected for your knowledge and insight. You want your partner to complement you by being a good student and intellectual sparring-partner - questioning and curious - and by sharing your love of knowledge and travel.

In some cultural traditions women have tended to repress their individuality and to project aspects of their personal identity onto their partner. Women with the Sun in Sagittarius are often attracted to the roaming and independent man-of-the-world with strong opinions, and a wealth of insight. Time will show that these qualities are within you, and are probably a higher priority for you, than they are for your partner.

Sun in 4th House

You express your identity strongly in your home and family. These things are the axis on which your life turns.

Sun in 4th House

You express your identity strongly in your home and family. These things are the axis on which your life turns.

David's Sun in Victoria's 8th House

You make Victoria aware of the role which hidden emotional factors have in her life. Living together is an intense affair and you both experience identity crises born of jealousies, insecurities and the sheer power of your erotic drives. There is an uncompromising need to gain psychological awareness.

Victoria's Sun in David's 12th House

You make David aware of the importance of subtle emotional and spiritual factors as a basic power behind existence. Circumstances in your relationship suggest that an element of sacrifice or isolation is necessary for your true self-realisation.

As an Aries David shares the love of freedom and independence with Victoria, who is a Sagittarius. Victoria is more of a thinker - knowledge and understanding are important for their own sake, whilst David is a doer...impulsive and dynamic. Both can be pioneers together, though David can be expected to take the initiative, whilst Victoria supplies the vision. Sun positive Sun: This harmonious contact is a major compatibility factor because both have a similar outlook on life on a very deep level and the same kind of need for self-expression. There is a similarity of missions which brings mutual support and encouragement. Furthermore, times of change or crisis will tend to be experienced at roughly the same time - particularly with regard to identity and creativity.

What makes people with the same Sun Signs so different is the contacts to other planets - or aspects - that the Sun makes. The following section shows which planets in your horoscope aspect your Sun and thereby modify your identity - and what consequences this may have in relationships.

Sun positive Mercury

A subjective view

Considerable self-esteem is invested in your ideas and opinions. You may be very creative but have difficulty seeing matters objectively. It is not always easy for you to see things from your partner's point of view. Personal pride interferes with communication.

Sun positive Jupiter

Positive future-orientation

You have a magnanimous and generous personality, and you search for meaning in life through travel, reading, study and discussion. With your wise and cultivated nature, you are a good advisor. In love, you are understanding and tolerant yet with a strong sense of ethics and justice.

Mutuality: Please note that in this case both David and Victoria have an aspect between the same two planets. This shows a strong bond, and increases compatibility and stability in the relationship. Mutuality - positive: As the shared aspect is positive for you both, it will give great happiness, and give you both a pool of resources to draw from. You will share the same area of interest and activity, and agree in your outlook on this area. Sun/Jupiter: This will be most apparent in terms of beliefs and convictions. As you both strive to achieve wisdom and understanding, the intellectual interaction between you is a major factor - and developing tolerance and the ability to listen to each other will be the litmus test of how much wisdom you have attained.

Sun positive Uranus

Unique personality

You are a humanitarian and freedom-loving person who can make friendships with people from all walks of life. You may well be socially active and dabble in consciousness-raising

Sun positive Pluto

Being masterful

You have a very strong character with a deep psychological interest in what goes on within yourself and others. You know how to handle power, and tend to be rather autocratic, inspiring respect, if not nervousness, in others. Though quite secretive, you require honesty in your partner; though wilful, you appreciate it when your partner stands up to you. You understand weakness but have no respect for a partner who is weak.

As both of you fear being helpless and strive for dominance, the true challenge of being together is to free yourself from the tyranny of past trauma and develop compassionate psychological insights.

Your ability to realise yourself, and the attitude that your partner has to this quest for self-realisation, is shown by the interaction between the Sun in the one horoscope and the planets in the other. This has a profound effect on how you are able to express yourself in each other's company.

David's Moon negative Victoria's Sun

Me or you?

This contact represents a powerful emotional bond between you which intimately affects every aspect of your life. Your relationship is strong but it is not so safe and secure as you would like it to be. You feel very attached to Victoria but she may often feel smothered or put under emotional pressure by you. For your part, you tend to react emotionally when she goes off and does what is important for her. If you want greater rewards in your relationship you should support her in her efforts for self-realisation even though you fear this may upset your security. You simply have different

Victoria's Sun negative David's Moon

Me or you?

Although there is a close emotional bond between you, you will often feel that David gets vulnerable or moody when you express yourself and your individual needs. You may find his response rather irrational but the fact is he is concerned about his personal security and that of the family, feeling that you often go off on your own individual trip without much sense of consideration for the deeply-felt needs of others. It is wise therefore to take time to reassure him and explain that what is good for you could in the long run also be good for you both. However, compromises must be made if

David's Sun positive Victoria's Mercury

The mental spark

You are fascinated and energised by the way Victoria walks, talks and thinks. You find her fun to be with and inspiring to communicate with. Together you like to be on the move, meeting people, travelling or learning. She gets you to lighten up and either see the humour of the moment in some situations or understand what's going on in others. She awakens your curiosity about life and can be a great teacher and an even better student. Apart from being able to mine her for information you can gain insight into your own character, through listening to her ideas and reflections. As a team you would perform well in an advisory role or as information-gatherer and teacher.

Victoria is the ideas-person and you are constantly inspired by her remarks and comments. This leads you to reflect on yourself and build up your confidence.

David's Sun positive Victoria's Jupiter

Mentor and guru

This is a very fortunate contact for you both, bringing happiness and great personal growth. Victoria can always present things in an optimist light for you. There is tremendous mutual respect and you will find your understanding of life considerably enhanced by the ideas and views of Victoria who opens up worlds for you. It is to your advantage to travel and expand your horizons together - especially in spiritual or philosophical directions. She may assume a mentor role in your life, though you will retain the executive power. As trusty counsellor, she can help you on your way to success and recognition, and as a couple, you are surely destined for prominence. You can attain an influential role in cultural, political, intellectual or economic areas.

Victoria's Mercury positive David's Sun

The mental spark

This is a major compatibility factor which truly enhances your ability to communicate together. Generally you feel a strong respect for David, you are curious about his ideas and willing to disseminate them to others. When he takes himself too seriously you know how to make him lighten up, when he is short of inspiration your thoughts can make a difference. This would be quite a good working partnership, in which your role would be messenger and secretary perhaps. You have an active and very mental relationship and this would involve you getting out and about together and making contact with others, communicating or writing.

You are the ideas person, bringing inspiration and information to David. You have much to offer him both intellectually and in the art of communication.

You can attain an influential role in cultural, political, intellectual or economic areas.

You will often find that when you express yourself David will be able to offer you fresh insights which enhance your self-awareness and put your life into greater perspective.

Double-mutuality: Please note that both of you have exactly the same mutual aspect between the planets making cross-contacts from one horoscope to the other. This is a MAJOR factor of compatibility. Whatever other contacts there are between your horoscopes, for better or worse, this double influence shows a strong bond and increases the harmony and stability in the relationship. **Double-mutuality - positive:** As you are both extremely creative in the area described, great pleasure and satisfaction is derived from that area. This is a shared activity in which you are both skilled and which gives you great mutual happiness. **Sun/Jupiter:** This will be most apparent in terms of beliefs and convictions. As you both strive to achieve wisdom and understanding, the intellectual interaction between you is a major factor - and developing tolerance and the ability to listen to each other will be the litmus test of how much wisdom you have attained.

David's Saturn negative Victoria's Sun

A fated bond

This is a very strong factor in your relationship and weighs rather heavily upon it. There is an element of fate which binds you together, and you are somehow forced to take an authoritarian role, providing strict guidelines for Victoria's development. You may feel uncomfortable with this role - she certainly does and at worst she feels restricted and repressed - but you feel it is your duty to work on what you see as your partner's immaturity. However you tend to feel insecure and clumsy in exactly those areas where Victoria is most herself and most spontaneous, so don't let your own fears colour your attitude to her. Learn to cherish the child in your partner instead of always subjecting it to your discipline.

Your unmitigated sense of realism and responsibility casts a pall over your partner's opportunity for self-expression.

Victoria's Sun negative David's Saturn

A fated bond

As far as your sense of self-worth and identity is concerned, you do not get spontaneous support from David. In a sense you awaken a latent insecurity in him and he responds by being somewhat sceptical or negative when you express yourself spontaneously. This evokes a serious side of your nature and you are forced to assume a parental role. This isn't exactly fun but the essence of the relationship is for you to build up a greater sense of responsibility and self-discipline. However you can feel too restricted by him, and your relationship would be happier if he gave you more than grudging support and visibly showed more admiration for you and for what you do. Long-term negativity can undermine your self-assurance, so you should learn to appreciate yourself on your own terms.

When David is feeling negative and blue you tend to mobilise all your resources to encourage him to be more positive - so even

David's Sun positive Victoria's Neptune
A vision together

This is not a major factor in the bond between you but you may nevertheless find Victoria a very inspiring factor in your life, stimulating your creativity, appreciation of nature and your spiritual life. She has a compassionate attitude towards you and may even idealise you, expecting you to live out her dreams. To some extent her idealisation is a two-edged sword for although it may at first be gratifying to your ego, you will find that your actions have to be pure and completely free of selfish motives to live up to her ideals. Through contact with Victoria you become a more concerned person and gain a greater awareness of that which is out of balance in the world around you. As a couple you may choose to take the lead in social and creative ventures.

David's Sun negative Victoria's Pluto
Darkness and light

This influence is at its strongest at times of personal transformation. If you were born within a year or so of Victoria you will find yourself projecting your own tendency to lurch from crisis to crisis onto her. Whatever the age difference this will be an intense relationship, often based on issues of power and powerlessness. Avoid battles of will - which Victoria will win because she is not frightened, as you are, of contemplating the destruction of the relationship if matters really should come to a head. She tends to evoke a ruthless self-analysis from you which can be exhausting for you both. Actually you awaken a deep insecurity in her, to which she responds by reversing the tables, keeping you off-balance. Avoid practising mutual therapy on each other.

You will often find yourself involved in exhausting efforts trying to rescue Victoria from self-destructive behaviour.

A vision together

Though not the most important contact between you this influence shows that there are qualities you find in each other which you idealise - though not always realistically. You soften David's ego and evoke in him greater selflessness and altruism. There is a limitless admiration and belief in the better qualities of the partner, which at its best truly evokes magnanimity in him. David also awakens your own spiritual nature, enhancing your sensitivity to people, nature and beauty. If your ideals can be channelled into constructive outlets, then you have the capacity to make the world a better place.

Your dreams and ideals have a spiritually transforming effect on David's character.

Victoria's Pluto negative David's Sun
Darkness and light

This is quite a powerful influence on a psychological level and it is expressed as a compulsive urge in you to change and transform David's character and identity. Whilst he may himself have a latent urge for drastic personal transformation, at whatever the cost, this is exacerbated by your own anxiety in the face of the psychological pressures which you both undergo in the relationship. There is something in the very character of David which awakens an inner unease in you, and you are subconsciously driven to try and control him. As this is impossible, this leads you to extreme states of desperation and powerlessness. Avoid the role of therapist if you can, as it only leads further and further into uncharted depths. Being together means uncompromising transformation for you both.

Your attempts to assert your will evoke deep anxieties in David and may lead to a breakdown unless you ease the pressure.

The emotional environment evoked by the expression of your Moon Sign is of crucial importance in your relationship.

Moon in Pisces
Purify your emotions

With your Moon in Pisces you are extremely sensitive to any little imbalance in the environment. Being caring and giving, you are prepared to sacrifice a lot to ensure happiness in a relationship. However, it is easy for you to get moody and to feel sorry for yourself. Feelings of sadness or martyrdom diminish the happiness which should be yours. By overcoming a tendency to indulge yourself emotionally - perhaps through developing

Moon in Sagittarius
Expand emotional horizons

With your Moon in Sagittarius you need a lot of personal freedom in a relationship. You want a partner who can show you the world and enhance your understanding of life. You do not want a partner who tells you what to do, or who is possessive, or who is dependent. You are very emotionally direct - perhaps because you are a lover of truth - but you tend to ride roughshod over the sensitivities of your partner. A little diplomacy would go a long way.

spiritual or creative talents - you may create a more positive atmosphere for your loved one.

Moon in 3rd House

You are very emotionally involved in matters concerning communication and local issues in your environment. Siblings play an important role in your emotional well-being.

David's Moon in Victoria's 7th House

Your emotional well-being is strongly dependant on how well your relationship with Victoria functions - and you will experience many swings of mood as a consequence of this emotional reliance. The strength of the bond awakens quite possessive feelings. Nevertheless, your partner will feel that you are very supportive and concerned and this makes her feel secure and comfortable.

Moon in 4th House

You have a deeply-emotional involvement with your family and are extremely attached to your home and heritage. At least one parent has an unusually profound effect on you.

Victoria's Moon in David's 12th House

Being with David evokes a deep longing from your soul and an awareness of the ephemeral nature of all emotional bonds. This could encourage you to develop your spiritual or creative interests, as you know you are basically alone and cannot afford to become too dependant.

This section shows the influence of different planets in your own horoscope upon your Moon - major factors in shaping your emotional life. These aspects from other planets to your Moon will evoke the following subconscious patterns, creating a partnership environment in which you must either sink or swim.

Moon negative Saturn

Emotional inhibitions

Your self-confidence is not strong and this makes you shy and inhibited, as far as self-expression in partnerships is concerned. Your partner finds it difficult to get close to you and even though you long for praise and approval, when you get it you act as if you do not need it. Lack of confidence in yourself, and in the future, puts a damper on your partner's enthusiasm. However, you are committed and responsible and with maturity you may learn to relax and see the lighter side of life.

Moon positive Mercury

Mental fertility

You are extremely good at expressing your feelings and you instinctively sense the emotional states of others, allowing them to open up. You have a talent for raising children because you are interested in them and easily tune-in to their wave-length. You learn fast from your emotional experiences with your partner and family.

The interaction between the Moon in the one horoscope, and the planets in the other, has a profound effect on the kind of atmosphere you create together. This section describes how and where you are emotionally touched by your partner, for good or ill. In this area you are at your most vulnerable and least aware. Conscious work on irrational emotional reactions is the key to harmony here.

greatly increasing shared areas of experience between you. However, you do not have an instinctive understanding of each other and you, particularly, have to work hard to understand how Victoria's mind works. It can be irritating for you when she takes a detached attitude to feelings which you experience quite deeply or when she makes fun of you when you get moody - but on the other hand you can benefit from her objective point of view, especially as you tend to express yourself emotionally and rather irrationally.

You will often react instinctively to situations which you feel undermine your security, only to have Victoria explain things from another more logical point of view. If nothing else, you are united in your worries.

**David's Mercury negative Victoria's Moon
*Feelings meet thoughts***

This is an important contact between you, showing that you are closely involved with the everyday aspects of living together. You discuss matters avidly - particularly as regards family matters and raising children. Though you do not always agree, things normally come to a successful conclusion after much discussion. You tend to be the one who argues rationally from your point of view; Victoria reacts more illogically and will often become moody instead of verbalising her feelings. Though you may master the logic of an argument, she creates the atmosphere you have to live in, so strive to tune into what your partner is actually feeling. Generally you are flexible enough to adjust, and to a certain extent you may help her become more emotionally objective.

You often respond to Victoria's emotional outbursts with rational arguments designed to explain solutions to the problem. You would have more success if you just listened and empathised.

Double-mutuality: Please note that both of you have exactly the same mutual aspect between the planets making cross-contacts from one horoscope to the other. This is a MAJOR factor of compatibility. Whatever other contacts there are between your horoscopes, for better or worse, this double influence shows a strong bond and increases the harmony and stability in the relationship. **Double-mutuality-negative:** Both of you struggle with a mutual influence which

subjects you to considerable stress and tension. This area will be a subject of conflict and disagreement, yet your struggles will bond you to each other, ultimately leading to a transformation of the behaviour in question. Moon/Mercury: This will be most apparent in the way you express your emotions - which you do constantly by the tone of your voice. You both share the challenge of finding a balance between cool rationality and emotional irrationality.

David's Moon positive Victoria's Uranus
Helter-skelter

This contact definitely contributes to the excitement in your relationship - but not to its stability. Victoria encourages you to experiment with your life, make changes and work on personal growth. She is more interested in getting you out of a rut, breaking attachments to the past and bringing new insights. This could be excellent for travel or settling into a completely new environment, though not so conducive to raising a family or building a home. There is a need for an untraditional relationship with mutual freedom. Victoria reacts to your attempts to be possessive by distancing herself, and this can make you feel rather insecure. She refuses to be owned by you and may be reluctant to make an emotional commitment. However she does help you examine your own feelings more objectively.

David's Uranus negative Victoria's Moon
Disruptions in the home

It is very difficult to establish domestic peace and harmony for any length of time with this contact. Somehow you feel provoked by your partner's attempts to create a stable existence and this moves you to act unpredictably, to shake Victoria up, to create more excitement. It is possible that your role is to awaken her to some degree, but in the long term nerves get frayed and tempers short. Because of your restlessness it can be difficult for you to settle anywhere and this creates a poor environment for growth - particular if there is a family to provide for. If you are looking for harmony, stop trying to change your partner - you are just not very good at it.

Victoria experiences you to be unpredictable, anti-social and provocative - and this makes her feel insecure.

Victoria's Uranus positive David's Moon
Helter-skelter

This contact is characterised by excitement and a high degree of emotional freedom. Traditional emotional bonds are not for you - you do not approve of possessiveness or conventional family ties in your relationship to David - you are seeking an alternative life-style with him, perhaps with the opportunity to travel, or simply develop your personal consciousness. Though David may desire closer emotional bonds you prefer to accentuate friendship rather than intimacy. As a result your relationship may be warm but rarely gets passionate; it may be very exciting but will rarely have the highest priority in your life. The need to live under one roof together is not pronounced and there will be times of travel which may mean you are separated for periods in your lives. You need to do exciting things together.

Victoria's Moon negative David's Uranus
Disruptions in the home

Though not a major factor in the relationship, this contact introduces an element of discord which can be very unsettling for you emotionally. Your own latent tendency to be restless and changeable is exacerbated by David, who is constantly stimulating you to do things differently and experiment with your life. However if you go along with this - though there may be a lot of personal development and consciousness growth - there would never be time for recuperation and peace. Your need for security is not met by David, who tends to give the impression that he could go off at any moment. He does not want to be owned by you and may get very nervous about making an emotional commitment. This can result in a relationship with periodic separations or living separately or with considerable mutual freedom. This may not fulfil your needs for a family and a stable home environment but at least you learn not to indulge yourself in your emotions and to see things objectively. Your relationship may well shock the norms of society.

Double-mutuality: Please note that both of you have exactly the same mutual aspect between the planets making cross-contacts from one horoscope to the other. This is a MAJOR factor of compatibility. Whatever other contacts there are between your horoscopes, for better or worse, this double influence shows a strong bond and increases the harmony and stability in the relationship. **Double-mutuality - positive/negative:** Although dealing with this mutual influence is easier for one of you to handle than the other, together you will work out lasting solutions to difficult problems and therefore enhance the quality of your relationship. **Moon/Uranus:** This will be most apparent in how you deal with your tendency to risk your emotional security because of a general restlessness and need for change.

David's Moon negative Victoria's Neptune
Emotional mists

Though not a major factor in your relationship this contact is extremely stimulating for your fantasies. This can be very interesting for you on a creative level but the tendency is for Victoria to stimulate your own latent tendency to be unrealistic or moody. Her talent for empathising may simply encourage you to indulge in negative feelings of martyrdom or feeling victimised. Just because you have her emotional support this does not mean that you are justified in feeling the way you do. You may also find it difficult to pin her down in matters affecting your feelings and your security - the truth is that you awaken a measure of uncertainty and confusion in Victoria and she therefore finds it difficult to express what she feels and clarify her emotional commitments.

Though not the most powerful of influences this contact will nevertheless affect your emotional life together. It is as if being with Victoria implies some sacrifice on your part and a kind of unhappiness tinges your relationship. These intangible feelings are evoked in you through being with her, but it is difficult to discern what the precise cause is or to know what to do to lift yourselves out of the fog. These feelings are exacerbated by drugs or alcohol, and during the course of time you may find that it is wise to live a purer life together, so that you may gain emotional clarity. Working to help others whose life is unfortunate in some way, or pursuing spiritual or creative interests, would make good outlets for the energies within the relationship.

Emotional brinkmanship

Though not a major factor in your relationship this influence will manifest itself at times of crisis. Your latent tendency, to interpret as a fatal rejection other people's detachment, is exacerbated by Victoria. When you make an emotional scene - which you often do because you can't work out what she is feeling - she will react in a cool and controlled manner, perhaps probing your motivations in what seems to be an unfeeling way. When ultimatums fly through the air she is unmoved and appears willing to abandon you. Emotional scenes are therefore best avoided - they lead only to exhaustion. Avoid practising therapy on each other. Being with her violently purges you of past negative influences but can lead you without a stable emotional foundations.

YOUR SOUL MATE

THE DESCENDANT SIGN: The disposition towards specific kinds of relationships is shown by the East/West horizon in your horoscope - the Ascendant/Descendant axis - and particularly the sign on the Descendant - the 7th House cusp. A person may be attracted to many different kinds of partner, but the horoscope will often indicate a specific destiny with regard to long-term relationships. The lasting partnership will be a mixture of love and destiny - if we are to spend many years together, there will be struggle and growth as well as happiness. This destiny is shown by the 7th house of the horoscope, which indicates personality traits which we tend to deny in ourselves and are fated to seek in others.

Descendant in Cancer

Seeking a homemaker

You will attract a partner who is strongly emotional, security-seeking, and attracted by your responsible and hard-working nature. This person will be dreamy and sensitive with interests in creativity and a very active imagination. You learn to develop some of your more subtle abilities and senses, through this relationship.

Frustrated by your rather inhibited and formal nature, your partner will make many emotional demands. The more you soften up and trust in

Descendant in Pisces

Seeking magic

Whilst you tend to lead a well-regulated life and are hard-working and organised, you are often drawn to a person who is more confused or less structured than yourself. This person will be philosophical, well-travelled and interested in gaining insights into life. You expand your horizons considerably through this relationship.

This person may bring magical and mystical dimensions into your life. You may often feel that you have no control over your partner or that you cannot be sure of your partner's

your feelings, the more emotionally stabilised this person will feel. The fewer burdens you take on your shoulders, the more time you will be able to devote to your partner, who will as a result become less dependent. It is important for you that a potential mate is able to express feelings deeply - even though you cannot - and is able to create a secure atmosphere as well as take responsibility for the home and family.

motivations or direction. You have to learn to adapt your tendency to compartmentalise your life and time, and instead to take things as they come. Your partner can teach you how to go with the flow. At times this person will seem at the mercy of emotions or confused or even embittered, and in this way you are confronted with irrational issues which evoke deeper development in you. Order versus chaos is the main issue in this relationship, and through it you learn that human endeavour is just a thin veneer over an existence in which all things dissolve with time.

Victoria's Ascendant in David's 8th House

Your choice of life-style awakens a certain anxiety and insecurity in David. With time he develops a greater self-understanding and psychological insight to cope with this.

With the Descendant in Cancer, David is looking for a partner who can provide a secure base, a cosy family environment and emotional support. He needs a caring person to come home to. Victoria, with the Descendant in Pisces, seeks the irrational in a partner, as if to balance the emphasis on structure and order in her own life. Both seek similar qualities in the other, and though they may agree in life view, they may be some difficulty fulfilling the partner's expectations.

This section shows the influence of different planets in your own horoscope upon your Ascendant/Descendant axis - major factors in shaping your relationships. These aspects from planets to your Ascendant will give you a specific attitude and behaviour towards everyone you relate to.

Partner and friend

You like to live a free life, and in your choice of partner you are looking for someone who inspires change in you, and who provides a refreshing new angle on life. You are attracted to people from exotic climes, or to people who live somewhat on the fringe. You are prepared to give a partner plenty of freedom, just as you expect to retain the freedom to indulge the many friendships in your life.

Aspects from planets in one horoscope to the Ascendant/Descendant axis of the partner's horoscope, are major factors showing the strong likelihood of a meaningful long-term relationship. It is these contacts which make all the difference between mere attraction, and the ability to influence each other's lives. You have the following bond:

David's Venus negative Victoria's Ascendant

Being charming

This contact shows a strong romantic bond between you, with the focus on romance, enjoyment and pleasure. Falling in love and remaining in love are the main priorities in the relationship and you will do what you can to shower Victoria with affection - just as you have a strong need for her to focus her daily life on satisfying and reassuring you with regard to your value in her life. Having said that, there is some danger of indulgence in the outer trappings of love, which include the pleasures of seduction and material benefits, and this by itself does not necessarily make for a lasting relationship though it certainly makes for a pleasurable one. The essential thing is to avoid spoilt behaviour, and to use your considerable charms with restraint.

Galvanised

Though not a major influence in the relationship this connection to Victoria awakens you to new possibilities in the way you live your life and cultivate your relationships. She brings an element of the unknown and unpredictable into your life, and this brings a rush of excitement which constantly keeps you on your toes. Under her influence you will strike out in new directions and embark on exciting experiments, and opportunities should arise to travel to exotic places in the world. Personal growth and change is an important factor in the relationship.

New angles presented by Victoria can inspire you to make radical changes in your lifestyle.

This influence, though subtle, has a significant effect on Victoria's life-path and relationships. You have a tendency to idealise her and in doing so encourage her to tune in to the more sensitive and concerned aspects of her nature and thereby awaken her latent creativity and also a kind of spiritual and social awareness. Conversely, Victoria makes you more aware of intangible energies in yourself, which are enriching because they awaken an identification with universal forces in the world around you. Being charming

This contact shows a strong romantic bond between you both. David uses considerable charm to win you over, and he will generally soften and sweeten your life, though there may be a price to pay. There is an element of back-scratching and self-indulgence in the relationship, partly because it is important for David to feel that he is valued by you, and this means you constantly have to make an effort to reassure him. The emphasis is more on romance and pleasure than commitment and duty. Material factors may play an important role, and you may have to adjust the way you live your life to keep David in the style to which he is accustomed. There is a tendency for affections to stray if romantic needs are not met by the relationship.

This is quite a dramatic contact and very beneficial for David, if he is looking for enlightenment and consciousness-growth. You bring a taste of the exotic into his life, perhaps because of your unusual interests or through some familiarity with foreign lands, cultures or affairs. You can also stimulate in David an interest in alternative life-styles. There is rarely a moment without excitement in your life together, although there can be some emotional distance. You encourage the view that you are separate individuals with the right to independence and freedom.

David's visions and dreams strongly influence the way you choose to live your life.

In searching for someone to live together with, there is a strong urge to find a person who expresses characteristics which we possess ourselves but fail to recognise and develop. Finding a partner will often compensate for this and make us whole. These characteristics sought in the partner are shown by the planet ruling the sign on the Descendant, and its Sign and House position, and its Aspects. The following section describes the kind of person you unconsciously seek, where you can meet this person - and what behaviour you evoke in the partner through needs unresolved in yourself.

Descendant ruler in 3rd House

Mental companions

Your partner plays an important role in your mental development and communication is a major priority for you. The influence of your partner encourages you to socialise and educate yourself. Indeed, you may meet potential partners in learning institutions. Other favourable opportunities for finding love could be through the influence of a brother or sister, or whilst travelling.

Responsibility as an issue

Partnership may be something of a burden to you perhaps because the demands of your partner mean that you have to exercise a lot of self-discipline and restraint. You are inclined to choose a hard-working and responsible person with a rather negative attitude, and feel that you have to use your own will to stiffen this person's resolve. Alternatively, your partner may adopt a rather oppressed role because of a tendency to take things too seriously. Whatever

Home and family life are high priorities for your partner and you will find that this requires a lot of your emotional resources and brings major development for you. You have the opportunity to meet potential partners through family connections. Indeed, there may be a kind of "arranged" atmosphere about marriage, because you have to take your family heritage into account.

Descendant ruler negative Sun

Self-assertion as an issue

Being with your partner makes you strongly self-aware and you may well feel that you have to assert your individuality to get recognition. Your need for personal growth is at odds with the demands of the relationship. You may feel your partner is too self-absorbed, whilst your partner will feel the same about you. As you are attracted to a person with a strong ego, you should see the partnership as an opportunity to project yourself more forcibly.

the circumstances, it pays to shoulder your responsibilities with determination.

Descendant ruler negative Mercury

Superficiality as an issue

Relationships are extremely mentally stimulating for you. You are attracted to a knowledgeable and clever partner, but you will often find that your ideas are at cross-purposes. This may mean a lot of discussion and debate and sometimes arguments and nagging. You take a somewhat rational attitude which may mean you may sort out your practical problems but you may be left high and dry, when deeper emotional issues need to be resolved.

Descendant ruler negative Venus

Self-indulgence as an issue

Being loved and maintaining the romance in a relationship is important to you, but you will often find that your partner has preferences and tastes which run counter to your own. Although you are attracted to a sensual person, you are too sensitive about your self-worth and demand an excess of reassurance. This may make one of you long for a love outside the relationship. Disagreement regarding economic issues, over-indulgence, or indolence, may undermine the harmony you long for.

Descendant ruler positive Jupiter

A partner to learn from

It is important for you that your partner shares your interest in travel, philosophy and the need to broaden horizons through cultural and intellectual activity. Therefore you tend to choose a person who evokes your latent hunger for knowledge and understanding. Through your partnership you may gain an optimistic view of life and learn to incorporate a vision of the future into your everyday life together.

Descendant ruler negative Pluto

Power as an issue

In choosing your partner you also choose to enter a psychological battlefield which leads to personal transformation and rebirth. You will often be attracted to a person in crisis, and embark on an exhausting healing crusade. In doing so, you subconsciously purge yourself of your own inner complexes. Your focus on emotional intensity and erotic passion needs to be tempered and diverted. Perhaps it is better to let partners sort out their own problems whilst you channel your therapeutic interests into your career.

Descendant ruler positive Pluto

A partner to transform you

Your partner will probably have deep and intense sides and have considerable psychological insight. You are attracted to a person who is prepared to undergo a personal transformation through intense emotional and erotic experiences. Being with your partner facilitates your own powerful drive to shed your superficiality, and reach to the core of your being.

If there are planets in the 7th House there is then a tendency to meet a specific type of partner and have a specific type of experience. Planets in this house show strong drives in you which may only be fulfilled through contact with another. People expressing this energy are mysteriously drawn into your life, thus giving you the opportunity to get to know the shadow side of yourself.

LOVE AND SEX

ROMANTIC NEEDS: Whatever kind of relationship you commit yourself to in the long term, you have certain values which reflect your personal taste and inclinations, when choosing whose company you wish to enjoy. Should your partner not satisfy all your social needs, you will seek fulfilment in friendships and other connections. These social and romantic needs are reflected by Venus in your horoscope. Not only does Venus show what qualities you value in others, this planet will also reflect feminine self-esteem in a woman's horoscope, and the type of woman which a man is attracted to in a man's horoscope. For both sexes the position of Venus will show specific types of experiences in love - and what to do about them.

Venus in Pisces

Seek love on a higher level

You are super-sensitive in romantic matters. Being something of a dreamer you often imagine qualities in your partner which are quite unrealistic and subsequently feel rather let down. However you are very giving - often willing to sacrifice yourself for your loved-one. You can maintain a romance even when there is little concrete to go on. You bring love into the lives of people who may not be able to find it anywhere else. If you were more discriminating in your choice of partner you would experience more fulfilment in love.

You have great talent for dealing with people, both on a social level and also when it comes to romantic matters. You have a light-hearted and balanced nature, and you are motivated towards creating harmony in your relationships. Your superior judgement and fine aesthetic sense are major assets in your love-life. Though a long-term relationship is important for you, you expect the aura of romance to be there constantly, and are prepared to do something about it if you feel it is missing.

One of your major assets is your charm and natural communicative ability which may be augmented by a pleasant voice and a

longing and a desire to transcend the daily commitments and monotonous work demanded. You invest much effort into improving your assets, both in terms of your personal talents and materially, reflected in possessing objects of value to which you are strongly attached. The economic aspect of relationships is very important to you and you particularly appreciate receiving gifts. You feel that this reflects your value to that person - for you feeling valued is a precondition for love.

David's Venus in Victoria's 6th House

You have a talent for getting your daily life together with Victoria to function smoothly. Performing your duties with good grace and style gives you personal satisfaction and being with her evokes a helpful spirit in you. There is something of a "geisha" atmosphere to the relationship.

familiarity with the social graces. You express yourself with grace and style in this area, and have little difficulty using your social talents to achieve results. You have a very winning manner in conversation and this can make you a master at the art of seduction - verbally at least. You are sure to make just the necessary effort to educate yourself in a way which opens doors to social progress. You may well have important relationships with sisters or friends which help you define your personal sense of value. Romance blossoms when you are gathered with others in learning situations.

Victoria's Venus in David's 10th House

Your values, economic acumen and social style can play an important role in David's professional success. It is of mutual advantage for you to invest in him and when success comes, you can expect great satisfaction from your enhanced status.

Venus positive Venus: This is a very harmonious contact because both share the same romantic needs, social inclinations and personal values and both tend to express their love and affection in precisely the way the other appreciates. With shared tastes and a mutual appreciation of each other's finer qualities, the potential for happiness and long-term romance is there. Furthermore, both tend to evolve their tastes and values at approximately the same time.

Your capacity to give and receive love and your sense of self-worth are modified by contacts from Venus to other planets in your birth chart. These aspects reflect the many nuances in romantic taste, showing which particular brew of influences go into forming your personal judgements. The following section shows what attributes a person must have to be romantically attractive to you, and how your own personal values influence your love life.

Venus negative Sun

My love or me

Your romantic needs are often at cross-purposes with your conception of yourself as an individual. In other words, you may find yourself doing something for love, which is not in accordance with the rest of your character. As a result you sometimes feel unworthy of attention.

My love or me

Your romantic needs are often at cross-purposes with your conception of yourself as an individual. In other words, you may find yourself doing something for love, which is not in accordance with the rest of your character. As a result you sometimes feel unworthy of attention.

Mutuality: Please note that in this case both David and Victoria have an aspect between the same two planets. This shows a strong bond, and increases compatibility and stability in the relationship. **Mutuality - negative:** As this shared aspect is difficult to handle for you both, you will both manifest the behaviour described, making it hard to know who is responsible for what.

Unhelpful behaviour tends to be perpetuated unless you both recognise your specified failings. Nevertheless there will be much excitement and growth in this area.

Venus positive Moon

Loving kindness

You are a soft and emotional person with a strong caring side and sense of devotion. Love is completely tied up with security so you are prepared to make many compromises to attain the closeness and safety you need. You are family-oriented and attached to home and children. You are expert at integrating a caring parental role with romantic and erotic intimacy.

Venus positive Neptune

Hollywood romance

You have a very romantic and loving nature and are willing to go a long way in the cause of love. Tolerant and understanding, you see the potential in other human beings, and love selflessly in the expectation that their potential will be realised as a result. Sometimes it will, but you are prone to disappointment. Furthermore you may easily be taken advantage of because you do not define what you can, or cannot, accept. You are apt to fall for an idealised picture of a person and are reluctant to open your eyes to see your loved one clearly - warts and all. Get real.

You are a real sucker for the diaphanous romantic woman with a heart of gold. You project upon her the purest virtues, partly because of your own "Hollywood" ideals about love. You can make it easier on your loved one by accepting her exactly as she is.

Venus negative Neptune

Romantic sacrifice

You have extremely high ideals about personal relationships and are firmly convinced that the ideal relationship must be possible and is just around the corner. It is not. You have a responsibility to the person you are with to show you are committed, otherwise the idea that your love might be unrequited will just become a self-fulfilling prophecy. It is very difficult for your potential partners to live up to your expectations because you evince an indefinable longing which seems impossible to satisfy. Your need to indulge these feelings may actually stem from a childhood experience that your parents were dissatisfied with their own relationship.

The dream of love seems to turn sour for you in a long-term relationship. You often find yourself playing a martyr's role. It is entirely your responsibility to clarify what kind of behaviour you are prepared to accept from your partner. Only spiritual or creative pursuits may satisfy the inner longing which you feel.

Mutuality: Please note that in this case both David and Victoria have an aspect between the same two planets. This shows a strong bond, and increases compatibility and stability in the relationship. **Mutuality - positive/negative:** Although dealing with this mutual influence will be easier for one of you to handle than the other, together you will work out lasting solutions to difficult problems and thus enhance the quality of your relationship. **Venus/Neptune:** This will express itself in a tendency to idealise the partner and then be disappointed. With time, creative and spiritual values awaken in you a greater understanding of the fallibility of human relationships.

The interaction between Venus in one horoscope and planets in the other, has a profound effect on how you are able to give and receive love. The following section shows to what extent your partner fulfils your need for love and what special behaviour characterises your love-life together.

David's Moon negative Victoria's Venus
Love and dependency

There is a very strong emotional bond between you, greatly increasing the potential for a loving relationship in which you both feel relatively secure. You are particularly sensitive to the need for love and appreciation which Victoria expresses, but you often over-react emotionally. There is a tendency to be at emotional cross-purposes which leaves you with hurt feelings and her feeling unloved, because you distance yourself emotionally. Whilst this emotional disharmony can be the bane of your relationship, it is often based on immature needs and a tendency to be too dependant on the other which you both can grow out of.

Victoria is looking for positive reassurance that she is attractive to you. Being emotionally demonstrative builds up her confidence.

David's Venus positive Victoria's Mars
Party-time

This is a fun contact and indicates very romantic feelings between you and Victoria. Any inhibitions you may have felt in previous relationships dissolve like snow in the sun and you are inspired to explore each other's hearts and - not least - bodies. She does not take long to respond to your seductive approaches and she is certainly not afraid to take the initiative herself. There is a natural enjoyment of erotic pleasure - and the fruits are not long in coming if you happen to be interested in children. You can experience teenage love and maintain it long into the relationship though this is no guarantee that things function well in other areas. Life is not necessarily as carefree as you would like it to be. You can get considerable mutual pleasure from social activities.

Victoria has no problem turning you on - you are inspired and flattered by her initiatives and are willing to follow her lead.

Victoria's Venus negative David's Moon
Love and dependency

There is a strong emotional bond between you and an intense and intimate emotional atmosphere. Both of you express strong needs but the response you get from David is not always the response you want. He tends to react to expressions of love from your side in a mothering or possessive sort of way - whilst you would prefer something more romantic. Being with him activates so many childhood associations that there can be an element of immaturity in the relationship. It can degenerate into a simple need-fulfilment situation if you do not take steps to avoid over-dependency. Nevertheless, this is a strong contact for family matters which can produce a warm emotional relationship.

Demonstrations of affection are important for you - you need to really feel love. Whilst David will often react supportively he tends to get moody, if you become too demanding. You get a better reaction when you show your affections first.

Victoria's Mars positive David's Venus
Party-time

You feel a very strong sexual attraction to David and this in itself is enough to inspire you to ignore any moral reservations you may have concerning indulging in sensory pleasures together. Fun, music and dance are introductory elements to the art of seduction and together you know how to make use of these skills to the fullest. You can also expect an active social life in which you can enjoy some popularity as a couple. Not only is your relationship playful - you can also be extremely creative together. Children spring forth from your union. This influence shows an uncomplicated enjoyment of the meeting of the sexes, and considerably enhances happiness in the relationship.

You happily take the initiative with regard to David and he follows willingly, giving you devotion and support.

Love's hard knocks

Expressing love and affection in your relationship with Victoria does not come easily and this is a major challenge for you both. The natural happiness that normally comes from romance and erotic games seems to be denied you. Your commitment to each other probably developed hesitantly, yet with time became very solid, almost to the point of seeming fated. This is because there is a particular lesson to be learned from the relationship concerning commitment, fidelity and responsibility. But it is essential that you in particular lighten up - you have a lot to learn from your partner's ability to converse socially and enjoy life. Often you respond with moral judgements, probably because you feel insecure in precisely the areas where she is so graceful. Relax the bonds on Victoria and loosen your inhibitions.

This relationship brings excitement into your life and evokes dramatic personal growth in you - partly because contact with Victoria often means learning about new countries, cultures and ways of living and partly because together, there is a strong desire to develop personal consciousness. The key word for your relationship with Victoria is freedom and there is a general understanding that neither of you has the right to decide over the other. Being in love does not rule out external friendships, and you can both develop an independent social life. Your life together is electric and unpredictable, with a natural spontaneous eroticism and a willingness to experiment and take risks. Under these circumstances boredom is scarcely possible.

Expect the unexpected when you give expression to your feelings of affection towards Victoria. Being with her is like being constantly invited to a surprise party.

Love's hard knocks

Living with David is not the easiest thing in the world for you, and you often feel unloved and unappreciated - both emotionally and materially. Your natural charm and love of life actually awakens the inhibitions of your partner, who becomes aware of his clumsiness in this respect. His response is to put a damper on you, under the pretence of being more mature or responsible, and you may allow this to happen because you project a parental role onto him. Of course you can learn a lot from this - not to expect to be babied or spoiled, learning self-sufficiency, etc. - but satisfaction and pleasure, both material and sexual - are important ingredients in most relationships and something you, too, should be able to enjoy. You have to work hard on yourself to make this relationship function - it requires maturity, self-restraint and long-term commitment.

This influence brings a lot of excitement into the relationship, which is characterised by a mutual freedom and respect for each other's individuality. You, in particular, sing the virtues of friendship without possessiveness, seeing your love as a vehicle for self-development and consciousness growth. There is something about you which is constantly surprising for David. He finds himself having completely new experiences under your influence - perhaps because you are so different or because you introduce him to new countries, new ideas or new people. You tend however to maintain a certain coolness or emotional distance which may not accord so well with your partner's need for intimacy and commitment.

You deflect and transform David's loving side, drawing him away from conventional concepts about partnership and introducing him to a more open and experimental attitude.

Victoria's Venus positive David's Neptune

Expect to have all your emotional fantasies and dreams stimulated by your feelings for David. It is easy for you to imagine qualities in him which he may or may not have, and this makes for a seductive romantic experience - though this is no guarantee in itself that love will last.

channelled into spiritual, artistic or altruistic interests - you need to be touched by something greater than mere personal love, and you want to feel the tender hand of a superior form of compassion, or to simply lose yourself in the poetry of sensation. That said, there are inherent dangers because of the tendency to over-idealise the relationship, as your eyes only see the positive in Victoria - at least in the initial stages of the relationship - whilst later, disappointment may arise through unfulfilled expectations.

You interpret the love between you and Victoria in universal terms, and unselfishly (but rather impersonally) share what you have with everyone.

(Though it is sure to soften your heart). You see in him creative talents which you long to integrate in yourself - music, nature, dreams and spiritual interests can become a strong element of the relationship. You learn through him to be more caring and compassionate, but take care - many of the qualities which you idealise in David may be fine in theory but impossible to put into practice. You risk disappointment if you indulge your own dreams in an indiscriminating manner.

Your expressions of love and affection evoke a powerful romantic response in David. Take care to ensure that he interprets what you say and do in the way you intend, otherwise things may get out of proportion.

 **DESIRE:** Sexuality is an essential ingredient for long-term satisfaction in a relationship, and this is shown by Mars in the horoscope. For a man this planet will also symbolise his masculine identity, whilst for a woman the sign Mars is in, and its aspects, will often show the kind of man she is attracted to. Mars will also show how you work together, and your ability to fight for what you need. Where Mars is, there is trouble, because issues of survival and self-assertion are paramount. In our civilised society both sexes tend to repress Mars - though women will do this more than men - and this may often mean that one's own aggression or oppression comes to expression in the partner's behaviour.

Mars in Aries

Take decisive action

You are a dynamic and spontaneous person with a strong desire to be at the forefront. You seek confrontation and love the excitement of battle. Nobody can get away with telling you what to do - you follow your own mind and carve out your own path in life. In relationship matters, you make your need for independence clear from the start, and if your partner agrees to your terms then you may have an exciting time together. If not, there will be a lot of fighting, and this may be fine as far as your concerned - you like a challenge.

Mars in Gemini

Develop mental prowess

You have a sharp intelligence and are very stimulated by witty exchanges and mental provocation. Your knowledge and verbal gifts are important factors in the art of seduction. You tend to send your amorous arrows off in many directions, and this may result in multiple-choice dilemmas in matters-of-the-heart. In other words you may get involved in more than one relationship, though you are rarely aiming for a deeper involvement. You must watch a tendency to sarcasm or being quarrelsome - you can be rather wounding.

Mars in 4th House

You are a fiercely protective person, strongly oriented towards building up a home and family - and then defending it. You strive hard in this area and show considerable fighting spirit and not a little impatience. Strife in your childhood has made you very sensitive to disharmony in your own family environment, yet your emotional restlessness and tendency for confrontation bring stress in this area. It is

Your energies are very much diverted into career drives as you fight to achieve your goals and to rise in status. important to channel your energies carefully within the home instead of directing them at those who are dear to you. You need to feel secure and protected before you can open up sexually.

David's Mars in Victoria's 8th House

You have a tendency to stir up some of the most profound and dangerous emotions in Victoria when you are together. Passions are aroused, particularly on a sexual level, as you make a voyage of inner discovery on the ocean of Eros. Dealing with the anxiety and jealousy that arises in you both, necessitates a deeper psychological understanding of your emotional natures.

not take kindly to receiving orders. In relationships, work comes first, and many of your battles are fought against authority. Inasmuch as your need to decide things for yourself affects relationships, conflict arises over who has the executive power. Erotic adventures may arise in business and career situations, perhaps because of the charged situations which may arise in challenging professional situations.

Victoria's Mars in David's 6th House

You and David make a good working partnership as you tend to be active and dynamic, organising and inspiring him in his daily life. Your influence can create some stress, as there is a tendency to be busy some of the time and critical at other times. Standards of perfection may be set too high.

Mars in Aries, which David has, gives a strong temperament and an impulsive nature. Victoria has Mars in Gemini, which gives intelligence, but inclines to argument and provocation. This combination can sometimes develop into a shouting match, though it is very active and stimulating...good for the outdoor life. This is quite an active sexual combination, but Victoria is looking for a partner she can have a good conversation with.

Your ability to express your will and desires is considerably modified by the influence of other planets in your horoscope upon your Mars. These aspects show how you might best express yourself sexually and the kind of problems that may arise when you do. For women, aspects to Mars will often describe the behaviour of the man in the relationship. If this appears to be so, then projection is at work. By learning to be more clear-thinking, and asserting your genuine needs, these negative projections may be eliminated or at least modified.

Mars negative Sun

Fit for fight

You are a forceful, brusque type with a strong and wilful nature. You simply hate being pushed around, and say so in no uncertain manner. Actually, you could be accused of being selfish - you go for what you want without too much consideration for others. Even when you would like to follow your noblest intentions, your desires may predominate. Sexually, you are demanding, to the point of being insensitive. Wilfulness and a temperamental nature almost certainly stem from a fraught relationship to your father.

Mars negative Moon

Quarrelsome

You are a dynamic and fearless person, willing to accept a measure of risk in your life. There were many family battles in your own upbringing and as a result, you tend to react by being overly defensive, or by being aggressive, when you are under emotional pressure. This is not the way to defuse tension; it only leads to escalating conflicts with your partner. By learning self-control and by being more conciliatory, you may overcome your irrational anger which appears to be inherited from your mother.

The interaction between Mars in one horoscope and the planets in the other, has a profound effect on how you are able to express your will and fulfil your desires. These contacts will also show what form of sexual expression characterises the relationship. Also you may expect both conflict and excitement in the areas specified in this next section.

You can be provocative in a playful way, but she knows how to respond to you without losing her dignity. Together you can take on the world without fear. She feels she has a worthy lieutenant in you and you are willing to fight many battles on her behalf. You are inspired by Victoria to be creative and energetic, taking every career or family challenge in your stride. There is an element of competition - but as far as your partner is concerned it's fine, as long as you know your place. Sex is a rewarding and spontaneous experience for you both.

On the one hand you indulge in light-hearted banter together whilst on the other there is a strong drive to investigate and explore the world of ideas and knowledge. Contact with others, education and travel are uppermost in your minds. No sooner do you hear Victoria express her ideas than you want to translate them into actions, so together you make a dynamic and intelligent couple. This influence in itself is not particularly romantic or emotional - it simply emphasises the importance of communication and intelligence in the relationship and demonstrates an ability to raise the spirit through humour and pranks.

You can help him get things done in a myriad of ways because you are flexible and full of ideas. You can find yourself getting embroiled in many arguments and discussions with David if you are not careful. even during trivial discussions, sensing that you are difficult to sway and that you are determined to have your own way. This leads to far too much carping and sniping. There are strong ideological differences between you and this can result in long discussions about matters of principle. You may find this stimulating - and it can be if you keep a sense of perspective and humour. You are looking for an intellectual capability in Victoria which she obviously has (otherwise you would not be with her) but which you constantly challenge. Unconsciously you tend to set up situations in which she fails to live up to your expectations and this results in Victoria pontificating and you rebelling against her supposed intellectual authority. David's Saturn negative Victoria's Mars *Chisel and granite*

This is a powerful but exceedingly difficult contact which is characterised by insecurity, friction and control. Initially there may have been a pre-destined element in your attraction to each other and a conviction that you could overcome whatever difficulties arose. Time shows that this is not so easy - you feel threatened by the spontaneous energy of Victoria and try to dampen, discipline or channel it. She feels intolerably restricted and bitterly resents your authoritarian approach. The most serious battles are fought in the bedroom, resulting in long periods without sex, or struggles with erotic expression. Try loosening the ropes. Another difficult area is in differing attitudes to work and duties. This relationship constitutes a challenge to you both

Victoria's Mars negative David's Saturn *Chisel and granite*

You experience severe restrictions in this relationship and this forces you to develop an extraordinary self-restraint and self-discipline - at least if you are looking for a long-term bond. David frowns upon any manifestation of your spontaneity, postulating that it is a sign of your immaturity. In actual fact he feels threatened by your ease of action and subconsciously strives to place limits upon your freedom. You in turn find him to be autocratic and inflexible and resort to rebellious behaviour - which of course gives the impression of immaturity. Nowhere does this battle of will come more to the fore than in sexual matters. By resisting your advances David asserts his authority over you. This leads to you stubbornly fighting against your own sexual impulses. To overcome

which takes time and patience to solve. You must confront your fear and Victoria her anger and deal with frustrations openly.

Decisions you make and the attitudes you adopt often mean that Victoria is prevented from doing what she wants.

David's Uranus negative Victoria's Mars
A short fuse

This is a profoundly provocative contact which ensures that your relationship is never lacking in excitement, though it may well leave you longing for peace. Victoria's actions and initiatives seem to strike a raw nerve in you, so that you react completely unpredictably, making co-operation almost impossible. You both tend to become very temperamental, if not explosive, perhaps because you would rather be free than possessed. Sexually, too, a nerve is touched, and though you can be wild and uninhibited together, excitement is probably at the expense of tenderness and intimacy. Something about you is exotic and different and this wrenches Victoria out of her usual working rhythm. Considerable personal development and consciousness change may take place under your influence, but not without pain and discomfort.

Sudden changes in direction on your part can leave Victoria feeling angry and disoriented.

Working on visions

Being with Victoria is extremely stimulating for your imagination. She brings out your latent creativity and compassion and this is beneficial if you want to work with music, art, nature, etc., or with some form of work which involves caring for others or realising your ideals in society. She also evokes some intuitive talents in you which may be useful on a spiritual level. There is however no guarantee that the inspiration you receive from her puts you on the right path - you are easily blinded by a tendency to idealise her or see qualities in her which she may not possess. She lays down no moral guidelines and this can mean that you get involved in some form of self-deception. Nowhere is this more true than in erotic matters. As far as sexuality is concerned there is a strong dislike of routine. Victoria is looking for the magic of seduction and the excitement of being wooed. Spiritual magic and sensory

impotence or frigidity in this area, you must see that a good sexual relationship is in both your interests. Keep conflict out of the bedroom and be energetic, yet patient, in your foreplay. This relationship is characterised by hard work and ambition - yet it is essential to take time off to enjoy the fruits of your labours.

Victoria's Mars negative David's Uranus
A short fuse

Though not necessarily a dominating factor in the relationship this is a somewhat explosive and temperamental combination. This is partly due to the fact that David finds what you do and the way you do it extremely provocative, and in turn reacts in a completely unpredictable manner. This awakens your anxiety and subsequently a defensive or even aggressive response from you. Both you and he are seeking excitement and adventure - you find yourselves on the fringe of society when you are together. Long-distance travel, cultural clashes, unconventional interests and activities characterise your relationship. It is in the nature of the bond that there may be regular periods of separation. David has the irritating habit of pointing out faults in the way you handle situations. There is also a tendency to go to extremes sexually - and though there is a constant erotic spark, the tension can be too disturbing in the long run. Relationship-security is low because he so demonstratively insists upon his personal freedom.

Working on visions

Though not the strongest influence this contact shows how you can inspire David in his work and actions because of your own vision and imagination. You would like to see him work, not so much for personal gain as for the sake of a greater idea or for the benefit of others. Together with you he can also have success on a creative level, precisely because you are able to put him in touch with his latent visionary powers. You have a tendency to idealise David, and there can be a danger that physical practicalities become something of an abstraction, whether it is a question of putting greater effort into achieving something tangible, or simply appreciating the physical pleasures of erotic contact. You are more interested in the magic of the soul.

Your dreams and visions inspire David to action and give him a sense of meaning and

stimulation, music and wine, nature and the elements - this is where erotic stimulation is found.

David's Neptune negative Victoria's Mars
Quagmire

Though not the most significant influence in the relationship this contact may awaken a tendency - which may be latent in Victoria - to allow her imagination to go over and beyond conventional limits. Without constraints on what is permissible there is a great risk of depletion of energy for you both.

Over-indulgence - especially in terms of substance abuse, questionable sexual activities or the unrestrained pursuit of desires - will have long-term consequences. This can for example be the undermining of the will to achieve or simply a dissolution of any sense of direction. On the other hand, through the application of the will to achieve idealistic, social or creative visions, you may both have considerable success. Sexually there may be discontent based on a dislike of routine, habitual sex and a longing for the romance of seduction. You may feel an antipathy to the primitive aspects of intercourse and long to transcend your physical desires. Learn then, about the spiritual aspects of eroticism.

significance in what he does.

Victoria's Mars negative David's Neptune
Quagmire Working on visions

It is not easy for you two to work constructively together. Misunderstandings abound because you tend to go into action with an unclear idea of what is required, and because David is very vague about what he actually wants. Your energy is diverted unproductively, and often into morally questionable areas. Strive to maintain high standards - together you tend to cut corners in ethical matters. It is no use looking to him for leadership or direction. Choose your own course. You get bogged down in discussions. Do not be deceived - he gets confused when confronted by your dynamism, and reacts by clogging up the works or by suggesting goals which are completely over-idealistic or unrealistic. Sexual harmony is also elusive as David often finds your desires too earthy and longs for a "spiritual" union. This too is illusory; development of greater body-consciousness would help you both. Health matters may be in the forefront. Be aware that alcohol and other addictions have a negative effect on this relationship.

Double-mutuality: Please note that both of you have exactly the same mutual aspect between the planets making cross-contacts from one horoscope to the other. This is a MAJOR factor of compatibility. Whatever other contacts there are between your horoscopes, for better or worse, this double influence shows a strong bond and increases the harmony and stability in the relationship. Double-mutuality - positive/negative: Although dealing with this mutual influence is easier for one of you to handle than the other, together you will work out lasting solutions to difficult problems and therefore enhance the quality of your relationship. Mars/Neptune: In this respect the important challenges for you both are in channelling your energies solely into areas which truly inspire you and to maintain a morally pure existence. This involves dispersing the emotional mists in your mind which cause you to project your own weaknesses onto your partner.

Hypnotic power

Though perhaps not a major factor in your relationship, being with Victoria evokes a latent tendency to get involved in power games. You are provoked by what you see as your partner's uncompromising nature and often find yourself engaging in a battle of will with her. This is fruitless and exhausting. She will always win the ultimate battle as she is quite willing to self-destruct - threatening the whole

Victoria's Pluto negative David's Mars
Hypnotic power

This contact awakens powerful forces, which may or may not be latent in David, leading to periods of self-destruction and extreme psychological states. Being with him is a fascinating and hypnotic experience, but it is also exhausting because of battles of will which in the last analysis may threaten the whole relationship. There is a strong sexual attraction and repulsion based on who has control over

relationship - if she does not get her way. Things need not get out of hand in this matter if you simply just back off. Actually you awaken a deep subconscious anxiety in Victoria when you get aggressive, and this leads to sabotage from her side. Sexually this can be a very passionate contact. However, issues of power impinge upon your erotic behaviour. Seeking release, you provoke each other to extremes and no sooner is one taboo brushed aside, than new limits are sought, in a spiral of desire, which often ends up with one of you feeling worthless and humiliated. It is to your advantage to investigate the spiritual side of sexuality.

You are often paralysed by the extreme attitudes which you feel Victoria adopts. If you receive an ultimatum it may be worth your while to call her bluff. But don't count on it.

whom, and this may lead to extreme sexual behaviour which consists of breaking endurance records. The emphasis on sex may lead to obsessive feelings of jealousy. When confronted with your partner's energy and will to independence, a strong and perhaps subconscious anxiety is awakened deep inside you and you seek to counteract this through asserting control. Ultimate control resides in your ability to destroy the relationship you both hold dear. If you do find yourself issuing ultimatums in an effort to get David to change his behaviour then you know you are on the wrong track. Much psychological work needs to be done - but not on each other; you need an intermediary.

You exert too much power over David, but do not know it because you are struggling too hard with inner feelings.

OTHER ISSUES

CONTACTS AND COMMUNICATION: However strong the bonds of love, in the long term a healthy relationship also depends on the ability to listen to and understand each other. Many relationships founder on poor communication, once the fires of romance and sexuality abate. The ability to communicate is shown by Mercury in your horoscope, and the following section shows the strengths and weaknesses you have in this area, their effect on your partner, and steps you can take to improve on the contact between you.

Mercury in Pisces

Realise your visions

You have a rich and creative imagination, but experience some difficulty in expressing your ideas rationally. Confusion and misunderstandings arise because you relate to feelings and intuitions which are not experienced by your partner. Furthermore you tend to become easily influenced by your partner, assimilating beliefs or ideas which are not truly yours. Communication improves when you tune into your inner thoughts and express them clearly and rationally.

Mercury in 3rd House

You are an extremely clever and articulate person with a wide range of knowledge and the ability to communicate it. A natural teacher and perpetual student, you are a person with a wide range of contacts.

Mercury in Sagittarius

Inspire others

You are a mental explorer with a strong drive to learn and travel. You express yourself forcefully with the conviction that you are right, and have grand schemes for getting ahead. Sometimes you seem like a know-it-all. Experience will show that your judgement is not always as good as you hope - so be open to your partner's opinions.

Mercury in 4th House

Your thoughts and concerns are centred around home and family, and sibling relationships exert a profound effect upon your mental life.

David's Mercury in Victoria's 8th House

You learn a lot about the positive and negative sides of the way you communicate through being with Victoria. Intense discussions and long silences force you to come to terms with hidden emotional issues. You may find yourself worrying about security in one form or another, because of irrational anxieties on her part. These issues are resolved more through psychological than material effort.

Victoria's Mercury in David's 12th House

Being with David leads to an inner attunement to thoughts and ideas which can be useful to you both creatively and spiritually. You may find that communication between you is less than straightforward - as if it were difficult to put into words, the myriad of impressions which your relationship inspires in you.

Aspects between the other planets in your horoscope and your Mercury will show talents or challenges with regard to your ability to express your ideas and be open to other people. These aspects describe the specific ideas you have and the kind of reactions you evoke in others through the way you communicate these ideas.

Mercury positive Saturn

A considered thinker

You can be shy and taciturn, and are rather defensive in intellectually challenging situations. Nevertheless, with time you attain a mature intelligence which ensures that you pay attention to what your partner says, and take good time yourself to get your message across. You may be a plodder but you get things done.

Mercury negative Uranus

Mental provocation

You are a misunderstood genius perhaps, which means that you may be inventive and unconventional, but you communicate badly. Firstly, you like to provoke simply because of a kind of mental restlessness and secondly, you tend to interrupt or go off at a tangent, almost as if it were your express intention to scatter the mind of your listener. At least you are aware, which means that you may learn fast from your mistakes.

Mercury negative Neptune

Misunderstandings

You have an extremely sensitive mind which easily becomes overwhelmed by disturbances or imbalance. Your dislike of dissonance means that you go a long way to avoid a confrontation, either saying things you do not really mean or behaving in an escapist manner, when there are important things to discuss. You create a smokescreen in which your partner gets lost, and in the long term this creates isolation in the relationship. Stand your ground and explain clearly what you feel.

Mercury positive Jupiter

Listening and understanding

You are a gifted and intelligent person with an ability to understand others and communicate well. Humorous and tolerant, you know how to reach your partner mentally and can be very persuasive. You combine an insatiable curiosity for facts with the ability to see the truth in the larger context.

Mercury positive Neptune

An intuitive listener

You are extremely sensitive to atmosphere and the mental state of others and communicate well through feeling rather than through words. Misunderstandings arise because of a lack of directness and because you pre-empt what your partner is going to say - you think you already know what it is. It is good to verbalise more and double-check that you have it right, and are not just hearing what you want to hear.

Mutuality: Please note that in this case both David and Victoria have an aspect between the same two planets. This shows a strong bond, and increases compatibility and stability in the relationship. **Mutuality - positive/negative:** Although dealing with this mutual influence will be easier for one of you to handle than the other, together you will work out lasting solutions to difficult problems and thus enhance the quality of your relationship. **Mercury/Neptune:** This will express itself in your special ability to read the non-verbal signals each other send, and the corresponding tendency to create confusion through non-explicit communication.

Mercury positive Pluto

Mental detective

Secrets and hidden matters fascinate you, and you possess a deep psychological perception. You can quickly attune to your partner's psychological state and give very perceptive advice. As a listener you have a wonderful healing power. You believe in the importance of secrets, but you must take care that these do not come between you and your partner.

The interaction between Mercury in the one horoscope and the planets in the other, has a profound effect on your ability to communicate with and understand each other. This influence has a powerful effect on a mental level as you tend to exacerbate a latent tendency Victoria has to wrestle with her thoughts to the point of exhaustion. Irrational worries and suspicions may plague the relationship and result in lengthy interrogations about your motivations and secrets at one extreme, and punishing silences at the other. Even though it may be difficult for you, you should try to allay your partner's suspicions through the antidote of openness and avoid getting drawn in to futile discussions which only serve to exhaust you both. You have considerable hypnotic power over Victoria and you may be tempted to misuse this by playing on her anxieties. It would help you both to learn about the nature of the mind through psychological interests.

Although this may not be a major influence in your relationship, this contact does tend to complicate communication. Nothing can be said lightly, every remark can be made the object of in-depth analysis. Exhausting discussions tend to drag on about seemingly meaningless issues. Actually the issues are intelligence and power. Your natural communicativeness evokes irrational anxiety in David who subconsciously responds in an obstructive or suspicious manner. This only serves to make you keep your mouth shut and as a result, long periods of silence may ensue. He has the resources to keep this up indefinitely. Your awareness that this habit is based on his deep-seated anxiety can help you defuse this potentially destructive communication-pattern.

BELIEFS AND UNDERSTANDING: The planet Jupiter shows the area in your life in which you express optimism, hope, and a belief in the future. When transposed onto your partner's horoscope it shows where you can most inspire your partner. The following section shows how and where you bring insight and understanding and in which area of your partner's daily life you have a very beneficial effect.

David's Jupiter in Victoria's 6th House

Victoria feels that you have a great spirit of tolerance and understanding which helps her get through daily hassles with an optimistic attitude. Your influence and guidance can be a great help in her working life, particularly because you help her see the meaning in and importance of integrating herself into something greater through work.

Victoria's Jupiter in David's 4th House

Your deeply-held convictions provide a strong foundation for David's family life. Through your understanding and insight into his own emotional heritage he gains an awareness of where his roots lie. Being with you means a great expansion of his family and from your side he can learn a lot about the importance of tolerance and intellectual "ballast".

Sun positive Jupiter

Positive future-orientation

You have a magnanimous and generous personality, and you search for meaning in life through travel, reading, study and discussion. With your wise and cultivated nature, you are a good advisor. In love, you are understanding and tolerant yet with a strong sense of ethics and justice.

There is no escaping the difficulties encountered here, but this influence is nevertheless a major growth factor in the relationship.

David's Saturn in Victoria's 5th House

Victoria often feels you have a negative attitude towards her when she expresses herself spontaneously through creativity, or simply at times when there is fun to be had. You may feel concerned when you see her being immature or childish and you often feel forced into a kill-joy role in which you try to get her to grow up. Whilst Victoria can feel crushed by what she considers to be your negativity, you can perform an important role in her life as a maturing influence. For you there are times when self-realisation smacks of irresponsibility and - particularly when there are children to be brought up - you are quick to remind her of her family priorities.

Victoria's Saturn in David's 7th House

For you, partnership with David means commitment and you are strongly aware of this at times when your partner does not show this commitment. David on the other hand, often experiences you as a limiting factor, especially when he wants to get together with others. However, you have an important role to play in helping him develop a mature attitude to relationships. You may find yourself unwilling assuming an authoritarian role in the relationship, because you feel you constantly have to show him where the limits are in a long-term relationship. Finding the balance between time spent together and time spent with others is not easy for you.

Though not so significant on a personal level in everyday life, this contact brings issues of power and authority to the fore. At times of crisis an atmosphere of ultimatum may pervade your relationship, in which Victoria's experience and authority are pitted against something even more powerful in yourself. This is a battle which you are ultimately destined to win, though you reap no advantage from it. This is because you are prepared to see the hard-won structures of your life shipwrecked on the rock of your wilfulness, whilst Victoria is not prepared to lose what she has invested in the relationship. In your outer life there are dangers through involvement with powerful institutions, whether they are institutions of state or more secretive underworld groups. In both your personal and public lives it is important to extricate yourselves before damage is done.

Though not normally so important on a personal level this contact is nevertheless significant whenever power or powerlessness are issues. Whenever there is a battle of wills you will find that your normal decisiveness and authority is effectively trumped by David. Why? he is prepared to take a loss, you are not. He is willing to see the whole edifice of your relationship crumble to achieve his will and you are not. It is therefore wise to side-step irresolvable issues if you want to avoid unpleasant ultimatums. Psychological issues may also be important in the relationship, perhaps because of David's tendency to go to extremes when confronted by what he sees as your inflexibility.

At times of crisis David may show little respect for what you have built up, so take care.

Under Victoria's influence you tend to be more drastic than you need to be. In career matters you may be instrumental in causing David to abandon his career path or come into conflict with the powers-that-be in his professional life. COMPATIBILITY:

The graph which follows shows at a glance to what extent both partners fulfil each other's needs in major areas of life. As each partner will experience the contact quite individually, there are separate columns for both. Each column of the graph is double, reflecting contacts which are either harmonious or disharmonious. Though, from the point of view of pleasure, harmonious contacts are to be preferred, disharmonious contacts also show compatibility and can be very stimulating. There has to be something to work on and overcome in a relationship. The final column shows general compatibility between both people.
